- Fitness

Driven developer with a passion for beautiful design and efficient implementation. My work for the African Literature Association has helped transform their brand image through a custom site re-design. Focused on front-end development and experienced with a wide range of languages and technologies.

Experience

May 2020 Present

Lead Developer (Full Stack) - Rock Medicine
- Taking a lead role on a team in the architecture design and full stack development of a versatile cloud-based EMR (Electronic Medical Records) system and native mobile companion for Rock Medicine
- Developing using React, React-Native, Typescript, Material UI, AWS AppSync and GraphQL to meet the unique needs of Rock Medicine which provides on-site emergency medical services via field clinics for large-scale events throughout the San Francisco Bay Area including SF Pride and Outside Lands

Nov 2019 Present

Web Developer (ALA - African Literature Association)
- Overhauled Wordpress website theme for the ALA to modernize their online presence and enhance the user experience
- Developed conference web application with React, Material UI, Redux and Firebase Cloud Functions (Node) backend to display event schedule, support login/signup and saving events to a favorite tab

July 2019 July 2020

Administrative Assistant (UW-Madison)
- Developed and deployed course web application using, React, Material UI, Redux and Firebase Cloud Functions in Node for student discussion and attendance tracking
- Coordinated scheduling, compiled research materials, handled email communications and managed websites for the department of African Cultural Studies

Jan 2019 May 2019

Email Newsletter Developer/Designer (WUD Music)
- Designed and developed custom HTML/CSS weekly newsletter to promote on campus concerts at UW Madison
- Collaborated with the marketing coordinator and team members to refine design details and functionality
- Compiled metrics that showed increased interaction of event pages by 86% and attendance by 48%

Jan 2015 Dec 2018

UI Design and Marketing (UniCade - Unified Gaming Platform)
- Designed UI for custom built arcade units using Illustrator/Indesign
- Produced promotional flyers, logos and refined the brand image
